Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 1, 2, 6, 7, 11, 12, 16, 17, 21, 22, 26 and 27 are rejected under 35 U.S.C. 102(e) as being anticipated by Levi et al (US 6,137,656). Figures 2 of Levi et al shows slider body 16 having first and second rails extending in a longitudinal direction along body 16 where leading edges of the rails are spaced from leading edge 28 of body 16. First structure 70 has a first depth and extends from edge 28 of body 16 to the leading edges of the first and second rails and between the first and second rails. Second structure 46 has a second depth disposed adjacent to the first structure and between the first and second rails. The second depth is lower than the first depth and structure 46 begins more than one-third of the length of body 16 from edge 28 of body 16.

A compression pad is disposed approximately to a trailing edge of body 16. The pad has a height equal to a height of the first and second rails and the pad includes third structure 72 having a depth equal to the first depth. Furthermore, the first and second rails are generally closer to one another near the leading edge than near the trailing edge.

Response to Arguments

Art Unit: 2652

3. Applicant's arguments filed July 9, 2003 have been fully considered but they are not persuasive. Applicant assert on page 8 that "the cavity 46, cited as the second structure by the Examiner, begins 13.3% of the length of the slider from the leading edges, substantially less than one-third (approximately 33.3%) of the length of the slider body from the leading edge."

Contrary to applicant's assertion, as stated supra, the second depth is lower than the first depth and structure 46 begins more than one-third of the length of body 16 from edge 28 of body 16.

It should be noted that the recitation in the claims is not "said second structure begins at the leading edge of the slider body and extends more than one-third of the length of slider body. The claims recite, "said second structure begins more than one-third of the length of slider body from the leading edge of the slider body. As a result, Levi et al anticipates the *claimed invention*.

Conclusion

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
